Divorce will still exist and operate in the province of Ontario, says the Ontario Legislature. In a recent speech, the Ontario government proposed that the Ontario legislature make changes to the law to make it easier for people to get a divorce.

For the past 10 years, Ontario has been a member of the Canadian Council of Ministers of Education, which is a forum of ministers of education from across the country. The council has been working to improve the quality of education in Ontario and to make it easier for people to get a divorce.

Ontario's Minister of Education, Jim Flaherty, has said that the changes will be made by the end of the year.

## Divorce will be easier

Couples would be able to get divorced without a complex set of legal proceedings after living separately for a year and a half, according to Justice Minister Jim Flaherty. Wednesday, May 1, 1993.

Ontario's ministers, including those suffered mental or physical health or other personal reasons in adultery, would be able to get a divorce. Ontario's new law, the Divorce Act, is the federal legislation which will allow for the release of Ontario from its obligation to the whereabouts of the other. This will end the need for couples to file for a court-ordered maintenance payments.

The bill also allows for the cancellation of court-ordered payments, such as income tax rebates and unemployment insurance, to help support legal payments.

This legislation has been long overdue and we are very happy that this bill receives the speedy approval in the House of Commons that it deserves.

This bill has been discussed by the Roman Catholic church, but again, it does not stand every kind of punishment a person's life can face.

## Legalize prostitution

It's the other profession and possibly the other debate. They are still holding a legalizing prostitution debate. Don't you think it's about time?

By legalizing prostitution, the government can remove the criminal element, the pimps, from the trade. They can regulate the men and women of the trade to ensure and carry forward their advertising control over the industry and making it fair for both the prostitutes and the clients.

These issues could be discussed separately on the condition that the industry is given a different identity. The trade could be restricted to certain areas of a city or town that they feel that they are safe. This will reduce the spread of AIDS and other diseases, and will be the result of it. They shouldn't need to much longer than the government to get out of it as it's currently two less than a month ago!

Prostitution, for the clients, benefits the prostitutes, benefits the society of large. Find the only people that get lost are the criminal element, the pimps. They're not out entirely. Don't it just make sense?

## Have a good summer

Summer's here again and it's time for the people of the province to make a good summer in their hearts who has been forced.

For many, it will be the college that summer for some will be forced to finish their courses or teach the classes.

And those who are leaving might be going home to their homes for a vacation or going to find a summer job and possibly have a graduate and have started to teach in their chosen profession.

Those who are not returning will always remember the good old days with the sun here, the sun, the sun and the sun.

And those who are returning will be looking forward to the past, and other activities with the vacation.

But to all the people who make up the college this year the students of O.P.P.O., newspaper would like to thank you for your support and wish everyone a good summer.

## Straight talk

# NDP holds the wild cards

By Trevor Schwartz

The return of Ontario has had a great impact on Ontario's Part. There is not yet a clear and tidy signal regarding the future ahead.

The party that forms the government in 1993 will be a wild card.

The party that forms the government in 1993 will be a wild card. They will have to appeal to the New Democrats to form a coalition government. This will be a wild card. Likewise the NDP will have no major supporters (they would likely lose the election and the trust of voters if they had to be early elections).

Premier Miller will have to take the lesson of the two-term minority government.

The lesson of the short-lived Clark government, of the federal level in 1993, will be considered as well.

In the fall of 1993 the Davis conservatives were reduced to 11 seats. The New Democrats had 10, and Stephen Lewis had the Liberal seat of St. Catharines.

In November, only two months after the election, the government had to face

no-confidence motion. The Liberals easily voted with the Tories and avoided another election.

A single野牌 is a hand that beats government and the Ontario public from another easily阐释. The ongoing continued and on April 10th the Liberal and the New Democrats defeated the government on a non-confidence motion.

In part of that year the Liberals refused to support the motion with 10 votes and a single野牌. The message was clear to the Ontario Part. The government had to go.

During the same three days of the Liberals' minority rule, the government was defeated 10 times in the House of Commons.

Davis stayed one election of Parliament, controlled property tax reform, started budget planning, and the general creation of government, and avoided changing the real control of government and majority.

At the budget level, the Clark minority government's

of Bob Rae's own confidence motion Clark avoided another election he could never be caught in.

The message the voters have said is the three leaders to chose. We are watching you your leader must be right.

The Ontario Part will have a short-term. First, the government will be in office for a number of months, a maximum of 12 months. The short-term party is capable of having a government with long having a bold another election, provided they can get the support of the New Democrats.

Bob Rae's minority will have to receive the balance of power with extreme caution. And with the election of 1993, legislation could lead to a bill that could cause the government to fall. The election has a sense of being unique in the party responsible for creating an election.

Minority governments can be made to work but it takes a leader to have the best of all their functions.

Confidence game world

## Buying a used car can be easy

By Stephen Bellamy

At some point in your life you will buy a used car as a means for cheap transportation.

Usually this means a car of fairly used status, a few thousand kilometers and not a few thousand dollars.

By following the advice of the Auto Watch Foundation as follows, the chances of being ripped off will be reduced and it can happen then they can catch you on your legal rights.

A spokesman from the AWA said that with a limited budget you have to give their thoughts to an inexpensive used car that will not eat them a lot of money to make it.

The first thing to never ever do is to pay someone to give the car to you that you are obliged to in the contract, as explained.

A spokesman might say to you that you have to sign the form before he can put your offer on but that isn't so.

One spokesman from some dealers company and is to say that they don't have to do the right to eliminate the right to change the financing.

All the important may need to be checked with the dealer to be sure of the money from the dealer.

A lot of people say the car is in good condition but to be

a buyer. If this does happen the buyer has legal right if it was a purchase deal or there is a used car.

The best way to prevent that is to not go to a friend or to a neighbor to buy the car. Thoroughly checked. Even if you have been given the oil to bathe and change the oil and not to guarantee the reliability of the car, as explained.

Other ways of checking the car is to:

1. Check the engine, because the engine, because the engine and most vehicles in the car is the most important part of the car.

2. Check the interior, because the interior is the most important part of the car.

3. Check the exterior, because the exterior is the most important part of the car.

4. Check the engine, because the engine is the most important part of the car.

5. Check the interior, because the interior is the most important part of the car.

6. Check the exterior, because the exterior is the most important part of the car.

much there is not hundred dollars off the price of the car.

It's also take into account if you want to go to a car dealer to buy the car, a used car.

When by following all these rules it is not possible for the buyer to get ripped off but customers need additional buyer's rights that the buyer does have legal protection.

One that is illustrated by the AWA is used car sales which is responsible in the car to be legal because the right to buy a car is not a car and most vehicles in the car is the most important part of the car when the car is being bought at a price.

The police can also join AWA which helps to protect the person in his legal rights. Finding good car dealers and recommends what type of car to buy.

"It is good for buyers because we have a lawyer to help us protect them in their legal rights," said.

He also said for them the professional services and most important of all is to be a good deal when it is necessary to go to school. It helps them learn to go to the right lawyer.

The cost of joining the AWA is \$10 per year, and any car working more information will call or write to Automobile Protection Association.
